Summary

- Primarily focused on front-end web development, but also experienced in back-end development.
- A self-starter with a broad knowledge base, able to design and develop web sites from concept to completion with minimal direction.
- A versatile candidate who welcomes new challenges, adapts quickly, is deadline-oriented, and has a keen eye for quality work and achieving team objectives.

Objective

To obtain an entry-level to mid-level position in an interactive department that will allow me to utilize my experience, adaptability and creativity in an active team environment.
